AUTUMN ISSUE  
The Quarterly e-Newsletter

Accreditation No. 17139

PROVE proudly acknowledges the Traditional Custodians and Owners of the land and water on which we rely and operate. We pay our deepest respects to their Elders past, present and emerging. We acknowledge the continued cultural, social and spiritual connections that Aboriginal and Torres Strait Islander Peoples have with the lands and waterways, and appreciate and value their care and protection for thousands of generations.

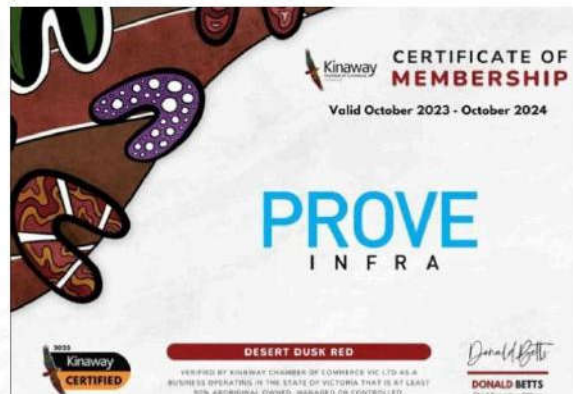

## Our Social Commitment

Supply Nation and Kinaway provide essential support, advice and create opportunities for Aboriginal and Torres Strait Islander businesses. Governments of States and Territories have each established a Social Procurement Framework that seeks to incentivize all suppliers and supply chains to adopt and maintain fair, inclusive and sustainable business practices for indigenous businesses.

As a recognised Aboriginal business provider, we will continue to provide professional services of Engineering consulting, Mechanical & Electrical contracting, water meter testing and product testing for WaterMark and WSAA approvals. Talk to us on how we can assist in helping your business meet its Social Procurement Responsibilities.

A division of PROVE is a Kinaway certified and Supply Nation registered Aboriginal business. Kinaway is a Chamber of Commerce that provides support, advice and create opportunities for Aboriginal and Torres Strait Islander businesses across Victoria. Supply Nation is Australia's biggest and most high-profile directory of Indigenous businesses which is mandated as the first port of call for Federal Government procurement officers looking for Indigenous businesses to fulfil their targets under the Indigenous Procurement Policy.

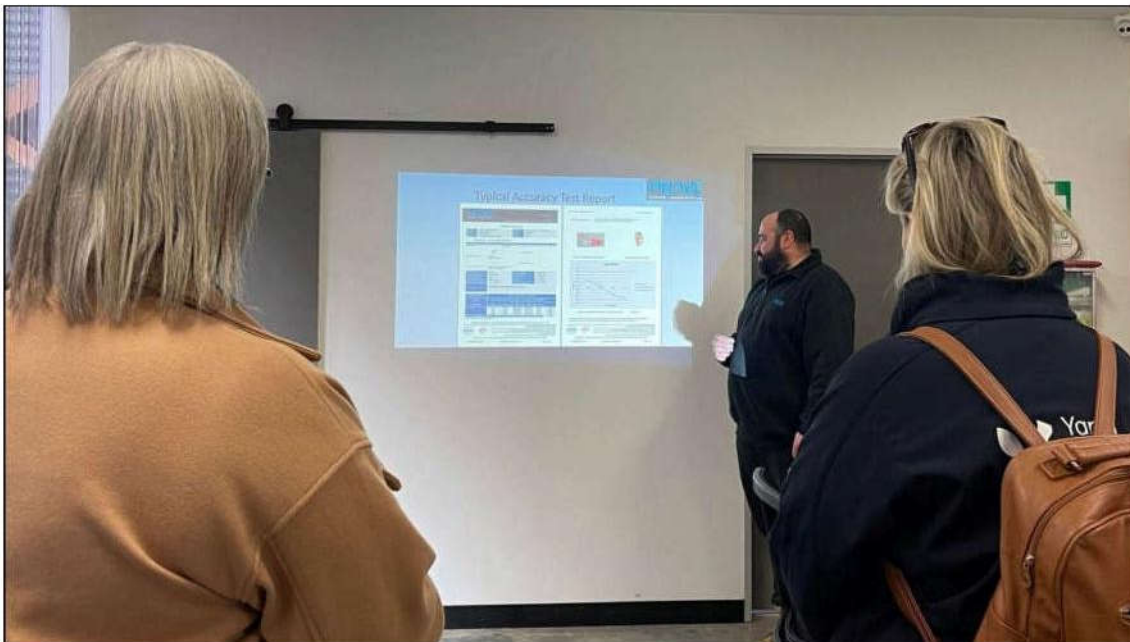

### **World Engineering Day**

World Engineering Day was the 4th of March, a day to celebrate engineering solutions for a better sustainable world.

Here at PROVE we are proud of our world class laboratory, designed and constructed in-house by our team of engineers to be specifically tailored to the unique nature of Australian Standards. Whilst providing a premium testing environment, PROVE continues to strive for a more sustainable world through engineering excellence.

### **Laboratory Tours**

The PROVE Water Meter Testing Laboratory offers a vast array of presentations and lab tours to cater for all aspects of water meter testing from customer dispute testing resolution, in-service compliance testing and Utility Meter Verification testing for all new meters being sold in Australia.

As a Utility Meter Verifier appointed by the National Measurement Institute of Australia we have great experience in the laboratory testing of the new age of digital / electronic meters.

If you would like to book in for a lab tour and presentation, please contact our office on 9357 9626.
